Pioneering Solutions for Transparency,
Efficiency and guaranteed Cost Savings
in Intralogistics.

locanis IntelliGence

Bengt Tuner, CEO

One of the largest challenges we have ahead of us is quite clear, we have to be successful as a company and at the same time tackle climate change with intelligent, resource-efficient solutions that will bring guaranteed value to our customers, and this is what we call: **locanis IntelliGence**

locanis IntelliGence **guarantees** you transparency, efficiency and cost reductions and the goal towards our customers is clear. Our solutions and products provide 100% transparency that will optimize all stages of the Supply Chain and at the same time provide positive sustainable environmental effects.

"It is our responsibility to create economic viable platforms that will provide ecologically sustainable solutions to our shareholders and customers"

Bengt Tuner, CEO

locanis intelliGence

locanis intelliGence - The Solution For Real-Time Transparency

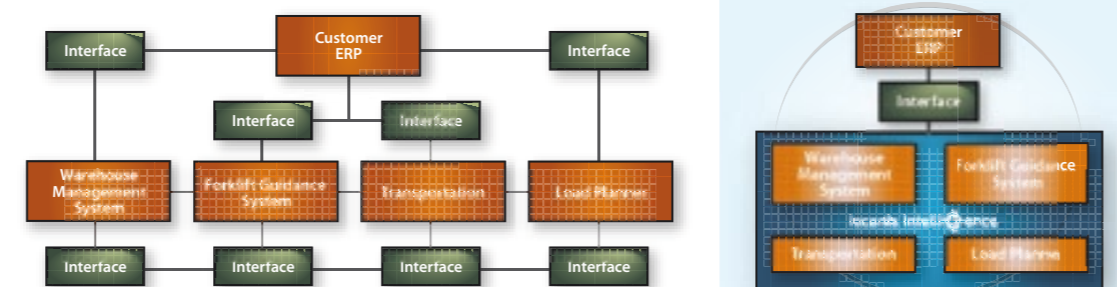

locanis IntelliGence is a tool that will provide real-time transparency (2D / 3D) for your indoor / outdoor movements.

- 100% Transparency
- Process Optimisation
- Increased Quality
- Defined Key Performance Indicators (KPIs)
- Environmental Sustainable Advantages
- **Guaranteed** Cost Savings

How We Work

The product portfolio of locanis intelliGence is based on an innovative combination of consulting, hardware and intelligent software applications. With the customer we define the project goals & metrics; these are the base for our evaluation and what kind of product we recommend the customer to install.

For our customers this means **one** interface, plug & play installation, copy & paste rollout resulting in **guaranteed** cost savings and transparency.

Time and Cost consuming Interface Management

One Interface Solution for greater Efficiency

locanis intelliGence Is Open

The extensive product portfolio and modular design makes locanis IntelliGence open to all software environments (SAP, IBM, Microsoft, Oracle etc.). Strong partners, defined interfaces (GConnect) and our own Warehouse Management System (GSilwa) enable a customer centric approach and a **Single Interface Solution**.

The Future Is Here, Today

Our product portfolio, world patent innovations and co-operation with innovative partners have opened new possibilities for groundbreaking solutions providing **Real-Time Transparency, Efficiency and Guaranteed Cost Savings in your Supply Chain**.
Future Solutions in Today's world – "Guaranteed"
